Clean and pea sized; 3/8" rock is used in concrete and road surfaces. When mixed with sand this rock is a stable horse corral bed. And good landscaping too.

Concrete Sand

Concrete Sand is used, as you can imagine, to fill spaces between rock used in the mixture of concrete. A path surface, a garden, and even swimming pool filters use concrete sand.

Customers buy from Gila River Sand and Gravel and bag Concrete Sand with their company name on it.
